

Student Guide Remote Learning

Steps to Transition to Remote Learning

This concise yet comprehensive guide is a just-in-time resource created for SPS students to get ready to access and participate in their courses remotely. This guide is meant for immediate use and is focused on essential information for the first week of transitioning to remote learning.

Preparing for Remote Learning in the Current Situation

Your instructor(s) will be sending you regular course-related updates as needed. You are encouraged to reach out to them and to other SPS staff and support resources with any questions or concerns. In addition, the latest information on the current situation at CU can be found here: [COVID-19 Guidance for the Columbia Community](#).

To prepare for the transition to remote classes, please ensure that you have an adequate workspace at home or elsewhere to participate in course activities in a remote capacity. Ideally, you should have access to high-speed internet, a laptop or desktop computer, a headset with microphone, and a webcam. If you do not have access to these resources please let your instructor know ASAP so that they can make adjustments as needed.

Last, but not least, we understand that this is a stressful situation. The highest priority is your own health and safety. So please be sure to practice self-care, stay informed by University alerts/local media, and follow recommended precautions.

Accessing Your Remote Course Site

Your course content, assignments, exams, readings, and discussions have been transitioned online, and are available on Canvas, at [Canvas/CourseWorks](#). Log in with your UNI and password.

You will be taken to your Canvas Dashboard, where you will find links to all of the courses you are enrolled in.

Accessing Communications From Your Instructor(s)

The very first thing you should do is make sure that you can receive all communications sent by your instructor as soon as they are sent out. Communications typically cover updates to the latest course and assignment information and other important instructions.

We would like all students to set their Notification Preferences in Canvas to “Notify me right away” in order to ensure that they receive all course-related communications sent out by their instructor(s) in a timely fashion.

We also highly recommend that you set your preferred Contact Methods to receive notifications on all devices you will have access to.

Setting Notifications Preferences to “Notify me right away”

1. Select **Account** in the Canvas global navigation and open **Notifications**

2. Review and edit Notification Preferences for Course Activities

- Select the **Notify me right away** option for Due Date, Course Content, Files, Announcement, Grading, Invitation, and Submission Comment.
- **Recommended:** Select **Push Notifications For All Devices** for the previously selected Notifications.
- Your selections will automatically be saved.

Setting Preferred Contact Methods

1. Select **Account** in the Canvas global navigation and open **Settings**

2. Under **Ways to Contact**, add another email address if needed

3. Add a **Contact Method** for a mobile phone or tablet:
 - a. Add the cell number
 - b. Select the carrier

The image shows a 'Register Communication' form with two tabs: 'Email' and 'Text (SMS)'. The 'Text (SMS)' tab is active. It contains three input fields: 'Cell Number', 'Carrier' (a dropdown menu with '[Select Carrier]' as the placeholder), and 'SMS Email'. A blue button labeled 'Register SMS' is located at the bottom right of the form. Red boxes highlight the 'Cell Number' and 'Carrier' fields, and the 'Register SMS' button.

- c. [Optional] Provide the SMS email
4. Click **Register SMS** to finalize your selections

Communicating with your Instructor(s) and Peers

Responding to an Announcement

1. Select **Courses** in the Canvas global navigation and navigate to your course.
2. From the Course Navigation, click the **Announcements** link

- In Announcements, you can view all the announcements in your course.
 - Announcements are listed in reverse chronological order with the newest appearing first and the older announcements appearing towards the bottom.
3. Open the announcement you would like to view by clicking on its title

4. Click on **Reply** if you wish to send a response to the announcement

Attending Virtual Class Sessions

Zoom is the video conferencing tool you will use during remote learning periods to attend your class sessions and virtual office hours (if any are provided). This tool will allow you to meet with your instructor and fellow students in real-time via webcam/audio, and share instructional content through screen share. You may also be asked to make use of interactive features like polling or video breakouts with other students.

What You Need to Get Started

- An internet connected computer, laptop, or device
- A headset or earbuds (if you're participating with a laptop)
- [Download and Install the Zoom App](#) (it will start a download automatically from that page); follow the installation instructions

Prepare for your virtual Class Session

Please follow these best practice guidelines to ensure that you can fully participate in your Virtual Class Sessions:

- Use a hard-wired Internet connection. A hard-wired internet connection (Ethernet) is highly recommended. Weak Wi-Fi will cause issues such as latency, choppy audio, and loss of connection.
- Use Firefox. Firefox is the preferred browser, but most other modern browsers should work as well.
- Prepare to talk a lot during our Class Sessions! While many laptops come with built-in mics and speakers, we highly recommend that you use a USB-based headset with microphone, such as the [Logitech ClearChat Comfort USB Headset](#)
- If you are using a laptop with a built-in microphone, please use headphones or earbuds during the Class Session to avoid echo or feedback. Listening through speakers may cause echo that disrupts the entire class.
- [Submit a support ticket](#) if you need help.

Join Your Class Session

- Click the **Zoom Class Sessions** link from your Course Navigation options
- Click the URL to the Zoom room posted by your instructor
- If you haven't already installed Zoom, you will be prompted to download the application
 - Download and install the Zoom application
 - Click the URL of the Zoom room posted by your instructor, again
- Launch the Zoom application from your browser
- If you need additional guidance, this video resource is helpful: [How to Join a Meeting](#)

Participate in your Zoom class session

Once you have logged into your Zoom meeting you will have access to a variety of meeting controls.

1. Activate your audio

When you open your Zoom meeting, you will be prompted to select an audio conference option.

Click the **Join With Computer Audio** button. To test your audio, you can select **Test Speaker and Microphone**.

2. Review your meeting controls

After you have joined your meeting with computer audio, you will see your meeting controls in a black toolbar at the bottom of your screen. Meeting participants will have most of these controls, unless your meeting host turns certain settings off for participants during the meeting.

The controls are as follows from left to right:

- **Mute/Unmute:** This allows you to mute or unmute your microphone.
- **Start/Stop Video:** This allows you to start or stop your own video.
- **Share Screen:** Start sharing your screen. You will be able to select the desktop or application you want to share.
- **Chat:** Access the chat window to chat with the participants.
- **Reactions:** Allows participants to send a thumbs up or clap to communicate without interrupting the meeting.

3. Turn on your webcam

To activate your webcam, click the “**Start Video**” button on the left side of your meeting toolbar.

Depending on the size of the class, you may be able to see all of the participants at once in a grid in gallery view. If you have a large group, you can click on the arrow on the right side of the page to see more participants' webcam thumbnails.

4. Share your screen to share content

The main way to share content in Zoom is via the **Share Screen** feature.

To share your screen, click the green **“Share Screen”** button in the middle of your toolbar. In the window, select the screen you want to share. You can also choose an individual application that is already open on your computer, the desktop, a whiteboard, or an iPhone/iPad.

If you are sharing sound or a video, click **“Share computer sound”**. Check **“Optimize for full screen video clip”** if you will be sharing a video clip in full screen mode.

When you start sharing your screen, the meeting controls will move to the top into a menu that you can drag around your screen. You can click “More” to access additional toolbar items such as “Chat”. Click “Stop Share” to end the screenshare.

5. Participate in meeting chats

The in-meeting chat allows you to send chat messages to other users within a meeting, either to the entire group or privately to an individual.

To open the chat window, click on “**Chat**” in your toolbar.

To chat with the entire class, type a message in the chat box and press enter. To chat with an individual, click on the “**Everyone**” button to see a drop-down menu with participants’ names. Select the participant’s name, type your message, and press enter.

During share screen mode, click on the “**More**” drop down on the right of the meeting controls to open a floating chat window.

Accessing Course Files

Your instructor(s) may choose to make files available in Canvas. There are multiple places where files can appear: the Files menu and in Pages, Discussions, and Assignments.

The Files Menu

Course files include any content uploaded to a course. If your instructor allows you to view the Files link in Course Navigation, you can view the files in your course.

Open Files

In Course Navigation, click the Files link.

View Course Files

All published course files can be viewed by all course users [1]. However, some files may restrict access to specific users.

You can preview and download all published files in Course Files.

If you want to see the files for all your courses, click the All My Files link [2].

Files in Pages, Discussions and Assignments

Your instructor may choose to include access to files in pages, discussions, and assignments in Canvas. These will appear as links in the text of the page, discussion, or assignment content.

After you have submitted your work, you will see information in the Sidebar about your submission [1]. For file uploads, the sidebar provides a link to your submission to download if necessary.

If you choose, you may resubmit another version of your assignment using the Re-submit Assignment button [2]. You will only be able to view the details of your most recent submission in the Sidebar, but your instructor will be able to see all of your submissions.

Once the instructor has graded your submission, the Grades link in Course Navigation [displays a grading indicator](#).

You can also see details about your assignment and links to additional feedback in your [Grades](#) page.

Notes:

- Your assignment will still appear in Assignments and the Syllabus; the listing is not removed with assignment submissions.
- When you resubmit an assignment, you can only access and view your most recent submission. However, instructors can view all of your submissions.

Taking Quizzes and Exams Online

For detailed instructions, see the **Canvas Student Guide:** [How do I take a quiz?](#)

Your instructor(s) may administer your quizzes and exams online in Canvas. In Canvas, all quizzes and exams are referred to as “quizzes.”

You can easily take a quiz by accessing the Quizzes page. Depending on how your instructor set up the quiz, questions may be shown all on one page or one at a time. If you are unable to finish a quiz you may be able to resume it at a later time.

Groups are a good place to collaborate on projects or to figure out schedules for study sessions and the like. Every group gets a calendar, a wiki, discussions, and a little bit of space to store files. Groups can collaborate on documents, or even schedule web conferences. It's really like a mini-course where you can work with a smaller number of students on a more focused project.

Click the Add Conference button.

Add Conference Details

The image shows a 'New Conference' form with five numbered steps. Step 1: Name, with a text input field containing 'Group 1 Conference'. Step 2: Type, with a dropdown menu showing 'BigBlueButton'. Step 3: Duration, with a text input field containing '60' and the unit 'minutes'. Step 4: Options, with two checkboxes: 'Enable recording for this conference' (unchecked) and 'No time limit (for long-running conferences)' (unchecked). Step 5: Description, with a large text area.

To create a new conference, type a name for the conference in the name field [1].

If you want to set a time limit on how long invited members are able to join the conference, enter the number of minutes in the duration field [2]. The time limit will begin when the presenter starts the conference. Once the duration has expired, new participants will be unable to join and the conference will continue until the last person leaves the conference room or the conference organizer concludes the conference.

If you want to enable [recording options](#) for this conference, select the Enable recording for this conference checkbox [3].

If you don't want to set a time limit for the conference, you can create a long-running conference by selecting the No time limit (for long-running conferences) checkbox [4].

To create a description of your conference, type a description in the description field [5].

Invite Course Members

The image shows a 'Members' form with two numbered steps. Step 1: Invite All Group Members, with a checked checkbox. Step 2: Remove All Group Observer Members, with an unchecked checkbox.

You can add any user in your group to your conference. However, once a user has been invited, the user cannot be removed from the conference.

By default, all members in the group will be invited to the conference [1].

To remove all group observer members from the conference invitation, select the Remove All Group Observer Members checkbox [2]. When this checkbox is selected all course members except observers are invited to the conference.

Note: Conferences can accommodate as many users as needed, though the recommended guideline is a limit of 100 users. If your group contains more than 50 people, you will have to invite group members individually.

Select Individual Members
